

# Beyond Identity politics ?

## *Intersecting disability, ethnicity and religious identities*

Conference 21<sup>st</sup> -22nd October 2009/Doctoral workshop: 23<sup>rd</sup> October 2009

Stockholm University, Sweden, in collaboration with

Norwegian University of Science and Technology and

Nordic Centre of Excellence: Reassessing the Nordic Welfare Model

Location: Stockholm University, Frescati campus

Identity politics has occupied academic debate since the latter part of the 20th century and the demand for recognition of minority group identities and a will to combat discrimination have been at the core of the philosophy. During this period however, we have witnessed a backlash in acceptance for identity politics, as well for multiculturalism. The conference hopes to bring together those with an interest in the historical and current discussion concerning the issues of identity politics and multiculturalism, and aims to explore what can exist "beyond" this philosophy in terms of various forms of universalism.

Confirmed Keynote speakers:

Professor Melissa S. Williams (Toronto University)      Professor Tariq Modood (Bristol University)

Professor Mark Halstead (University of Huddersfield)      Professor John Wrench ( FRA/EUMC- Vienna)

Professor Lennard J. Davis (University of Illinois at Chicago & University of Illinois College of Medicine)
